Committee of Fourteen Members Appointed for Trial of W. H. Joyce.

BY MAMIE BAYS.

Baltimore, Md., March 26,—In keeping with special action upon the part of the Baltimore Conference, of the Methodist Episcopal Church, South, to-day, two features of special interest will claim the attention of the conference during the session of Friday morning. One of these will be the day morning. One of these will be the reception of the class of undergraduates into full connection, and the other, the election of delegates to the general conference. While the election of delegates will begin on Friday morning, it is hardly probable that it will be completed before Saturday. This conference is entitled to four and possibly to five clerical delegates, and to an equal number of lay delegates. It is not improbable that this conference, like the Virginia Conference year, and some of these, may be preachers from the "ranks," circuit preachers, perhaps, instead of sending official members and presiding elders to constitute the entire delegation. seven of the class of twelve of the fourth year were elected elders.

On account of the fact that several members of each of the undergraduate classes called to-day failed to pass their examinations in the course of study, they were continued in the same classes for another year. Bishop Denny called special attention to this, and said that, while he did not intend to lecture the conference, he did want the conference to remember that the church expects a better record from every conference than this; that too much laxness at this point exists in many of the conferences, and that duty and loyalty demand more promptness in the completion of the course of study by undergraduates.

The anniversary of the conference Sunday school board was held this evening, and two addresses were delivered.
